**AQUASTAR TO HOLD 45 MINUTE PRODUCT SEMINAR AT NPC 2009  
NATIONAL CONFERENCE'S WELCOME BREAKFAST**

*Pool Products manufacturer will showcase revolutionary new products at premier  
pool and spa industry event of 2009*

**RENO, Nev.** – Influential members of the pool and spa industry will soon gather in the “biggest little city in the world” for the National Plasterers Council’s (NPC) 20th Annual National Conference—the premier pool and spa conference of the year. AquaStar Pool Products, Inc. has sponsored the “Welcome Breakfast” and will showcase their entire line of VGB Series anti-entrapment suction outlets, each compliant with the Virginia Graeme Baker Pool and Spa Safety Act.

During the “Welcome Breakfast,” AquaStar will show official compliant drains in different settings as well as presenting their entire line of VGB Series anti-entrapment drains during a 30-40 minute film immediately followed by a question and answer session. The San Diego-based company also plans to maintain a booth at the show, where it plans to unveil several revolutionary new products.

“This is a great opportunity for us to educate the leaders of the pool and spa industry about the advances AquaStar has made in safe drain technology,” AquaStar Co-Founder Olaf Mjelde said. “We have been looking forward to this event and our presentation since the Virginia Graeme Baker Act was passed.”

The NPC National Conference is the annual meeting of the leaders of the pool and spa industry. The NPC was formed to provide a forum for swimming pool professionals to come together for continuing education. The Council’s code of ethics encourages research and development, promotes public service, and discourages false statements in advertising that could mislead the public.

“AquaStar’s membership in the National Plasterers Council is a great source of pride for the company,” said Mjelde. “We are honored to present our contributions to the pool and spa industry at this prestigious event.”
